Military and Counter-Terrorist Training Aids

POINT OF CONTACT: syme@miltra.com

PRODUCT: IED TRAINING KIT

PART NUMBER: TAMMS-IEDD-100

INTRODUCED: January 2000

VERIFIED: June 2009

This kit contains a range of common types of IEDD's.

All items are entirely INERT and do not contain any real parts.

Items are designed to enhance training of EOD Personnel in the Recognition, Awareness and Disposal of a range of general IEDD's

Most items are operational, using small LED lights, or piezo buzzers to indicate device operation. All battery power sources are replaceable. A full set of instructions for use is provided, and the set is packed into an aluminium briefcase.

Models included, are as follows:
