PRODUCT: MIDDLE EAST IEDD KIT **PART NUMBER:** TAMMS-MMTC03

INTRODUCED: June 2009

VERIFIED: June 2009

A new training kit introduced in June 2009.

This kit has four main components, all used and encountered in conflicts in the Middle East. IED's and components are often used to modify a standard munition to make a modified IED, and also to be used as a booby trap element.

All items are 1:1 scale in authentic colour and correctly marked.

All models are entirely INERT, and do not contain any real parts.

Models are intended for Recognition, Awareness and Disposal Training, and can be used in conjunction with the Middle East land Mine, and Munitions Training kits..

The set is supplied in a durable man portable packing/storage case.

Models included, are as follows:

A: SIMULATED EXPLOSIVES:

TNT BLOCKS OF VARIOUS TYPES (plastic cased/Russian & Chinese) x 6

STICKS OF PE x 5

SLABS OF PE (C4/SEMTEX) x 10
