## Military and Counter-Terrorist Training Aids

**POINT OF CONTACT: [syme@miltra.com](mailto:syme@miltra.com)**

**PRODUCT: AERIAL BOMB FUZES**

**PART NUMBER: TAMMS-TABF**

**INTRODUCED: January 2000**

**VERIFIED: June 2009**

The design of this kit has been revised in June 2009.

The kit contains a series of Russian Aerial Bomb Fuzes which can be used with the full sized Aerial Bomb Models, or as a stand alone training kit.

A selection of Nose, Nose and Tail, and Tail only fuzes are included. Three sizes of fuze aperture are included, 26mm, 36mm and 52mm.

Two of each type of fuze is included in the kit. The Armed and Unarmed features can be displayed on each fuze, but for training, it would be easier to use one model in the Armed condition, with the second model in the Unarmed condition.

As a new feature of the kit, two of the different aperture fuzes are also supplied as steel blanks. These can be fitted to an aerial bomb model, and can be used with removal tools, such as a rocket wrench.

All models are packed into an aluminium packing/storage case.

Models included, are as follows:

Combination PVC, polyurethane resin and metal part fuzes designed to display armed and unarmed features:

ADGT-A	p/number: TABF-005	NOSE ONLY	26mm	qty: 2
ATK	p/number: TABF-023	NOSE & TAIL	26mm	qty: 2
AGM	p/number: TABF-026	NOSE ONLY	26mm	qty: 2
AD-A	p/number: TABF-027	TAIL ONLY	36mm	qty: 2
AGP	p/number: TABF-009	NOSE ONLY	36mm	qty: 2
VDV	p/number: TABF-008	NOSE & TAIL	36mm	qty: 2
AVT-E	p/number: TABF-028	NOSE & TAIL	52mm	qty: 2
AVU-E	p/number: TABF-004	NOSE & TAIL	52mm	qty: 2

Steel blank fuzes:

STEEL BLANK 1	p/number: TABF-B01	APERTURE SIZE	26mm	qty: 2
STEEL BLANK 2	p/number: TABF-B02	APERTURE SIZE	26mm	qty: 2
STEEL BLANK 3	p/number: TABF-B03	APERTURE SIZE	26mm	qty: 2
