Military and Counter-Terrorist Training Aids

POINT OF CONTACT: syme@miltra.com

PRODUCT: AERIAL BOMB MODELS

PART NUMBER: TAMMS-TABM

INTRODUCED: January 2000

VERIFIED: June 2009

All are manufactured in metal to provide a durable, but man portable training aid. Models which can be fitted with both nose and tail fuzes are supplied with a full length steel tube fitted through the model, and held in place by hard rubber shock absorbers. Nose only models are fitted with a part length tube and hard rubber shock absorber. The threaded inserts will accept the range of [TAMMS AERIAL BOMB FUZES](#). All models are fitted with lifting lugs, and include authentic markings.

The numerical value shown denotes the gross weight of the actual live item, in kilograms (eg: FAB-250 is the 250kg version of the live bomb). Approximate weight of the training versions is between 50 – 70kgs.

The FAB series models can be fitted with a nose or tail fuzes. The internal tube has a diameter of 52mm to allow the largest size fuze to be fitted, and is also supplied with adapter rings to allow both 36 and 26mm fuzes to be fitted. Models are fitted with threaded nose and tail protectors.

The RBK model supplied with a 52mm threaded nose fuze aperture, and adapter rings to allow both 36 and 26mm fuzes to be fitted. Model fitted with threaded protector. The tail section of this model can be removed to simulate the action of the live item in dispensing PTAB-2.5M anti-tank munitions.

The OFAB model is fitted with a removable telescopic arming probe and parachute housing with removable lid and internally fitted 'drogue' style parachute.

Models included, are as follows:

FAB-250-M46	p/number: TABM-001	250kg	GENERAL PURPOSE BOMB
FAB-250-M54	p/number: TABM-007	250kg	GENERAL PURPOSE BOMB
FAB-500-M54	p/number: TABM-002	500kg	GENERAL PURPOSE BOMB
FAB-500-M62	p/number: TABM-003	500kg	GENERAL PURPOSE BOMB
FAB-250-ts	p/number: TABM-008	250kg	GENERAL PURPOSE BOMB (removable tail & tail fuze only)
RBK-250	p/number: TABM-005	250kg	CONTAINER BOMB
OFAB-250M	p/number: TABM-006	250kg	FRAGMENTATION BOMB
